"The women are not repulsive."

*Oh the weather outside is frightful...*

*Oh, the weather outside is frightful  
(thanks to climate change)  
But the fire is so delightful  
(all other energy is way too expensive)  
And since we've no place to go  
(thanks to Brexit)

(it's marginally better than no insulation at all)*

**Cynical? Moi?**

**Wishing you the best for whatever season /  
cyclical calendar / apocalypse you prefer!**
